

AGE FRIENDLY TEANECK COMMUNITY ROOM

Hearing Loss: A Conversation About Access and Interventions

When: **Monday, March 24 at 2pm**

Address: **1425 Teaneck Rd, Teaneck**

Parking is available at the municipal lot on 1391 Teaneck Rd

Description: This presentation explores the impact of hearing loss on communication, quality of life, and the aging brain; highlighting the importance and the methods of early detection and intervention.

FREE hearing screenings will be offered to all attendees.

Hacksack Audiology is a local community-oriented audiology practice. Using advanced technology and adhering to best-practices, we diagnose and provide tailored solutions to our patients, ensuring their concerns are heard and their goals met. As an independently owned practice, we work with all major hearing device manufacturers without bias, so our patients have every option in their care. Our focus on honesty, integrity, and personalized care helps our patients stay connected to life's important moments.

William Stoll, Au.D., is a clinical audiologist at Hacksack Audiology & Hearing Aid Associate, joining the team in 2020. He earned his Doctorate of Audiology from Montclair State University, where he was actively involved in research and leadership roles. He completed his clinical fellowship at Columbia University/New York Presbyterian Medical Center. Dr. Stoll specializes in hearing aid amplification for all ages, including bone-anchored hearing devices and cochlear implants, with research interests in hearing aid donation banks, tinnitus treatment, and electrophysiology. He is a member of the American Speech-Language-Hearing Association.
